PVC BACKED COIR

PVC Backed Coir is an ideal entrance matting solution for high traffic areas, either indoor or covered outdoor. Ideally used recessed, this product can also be edged with heavy duty edging for loose laid applications.

Available in natural coir colouring in three thicknesses (17mm, 24mm or 30mm) or in black or grey (17mm only).

FEATURES

- Indoor or covered outdoor mat for high traffic entrances
- High moisture absorption
- Coarse coir bristles provide excellent scraping to the base of footwear
- PVC backing reduces the dislodging of coir fibres
- Black and grey options are fully dyed and will not fade.
