CABLE SAFE

Cable Safe is a nitrile rubber backed mat with a nylon top. They are designed to protect cords and cables from foot and wheeled traffic and to prevent the trip hazard from these also.

FEATURES

- Specially formulated non-skid backing reduces mat movement on flooring.
- Cut-out on underside of mat holds cables securely in place therefore eliminating trips on power cords.
- Durable nitrile rubber underside protects cords from damage from foot and wheel traffic.
- Easy to clean - can be hosed, machine washed or vacuumed
- Chevron safety border option warns people of hazard
- Two mats in one - incorporates a cable protector and an entrance mat in one
