DURA RIB

Dura Rib is an extremely hard wearing material designed for indoor or outdoor applications. This versatile UV resistant matting can be used as a very high traffic recessed entrance mat or fixed down on walkways and ramps.

FEATURES

- Attractive rib design scrapes and provides high level of traction
- Extra pile weight gives the product maximum life in demanding environments
- Unique drainage backing allows moisture to pass through
- Can be installed with a sealed backing to prevent moisture passing through
- UV resistant polypropylene
- Easy to clean and dries quickly
- Can be installed with MatTek surface mounted ramps
