## INSERTION RUBBER

Insertion Rubber is a durable sheeting made from natural rubber with cloth insertion. Being a versatile product, it is used in a wide range of applications, some including as ground protection for driveways and walkways or surface protection for toolboxes, workbenches and ute or van backs.

### FEATURES

- 100% natural rubber construction — extremely hardwearing and durable
- Woven cloth insertion gives matting high strength and excellent tear resistance.
- Easy to clean — can be mopped, swept or wiped clean.
- Shore hardness 65±.
- Tensile strength 10.5MPA.
